Revision No. 6 MARBEC S.R.L. Revision date 08/02/2022 Printed on 08/02/2022 YCH8007 - VELA BIANCA Page No. 1/16 Replaces revision:5 (Revision date: 01/07/2020)

Safety Data Sheet Complies with Annex II of REACH - Regulation (EU) 2020/878

SECTION 1. Identification of the substance/mixture and the company/company

1.1. Product identifier

YCH8007 Code: Denomination **VELA BIANCA** Chemical name and synonyms **VELA BIANCA**

1.2. Relevant identified uses of the substance or mixture and discouraged uses

SU22 - Professional Uses SU21 - Consumer Uses Area of use

PC35 - Washing and cleaning products (including solvent-based products) **Product Category**

Description/Use **Detergent for sail surfaces**

1.3. Information on the safety data sheet provider

MARBEC S.R.L. Name Address VIA CROCE ROSSA 5/i Location and State 51037 MONTALE (PISTOIA)

SECTION 2. Hazard identification

MARBEC S.R.L. Revision No. 6 YCH8007 – VELA BIANCA Printed on 08/02/2022 Page No. 2/16 Replaces revision:6 (Revision date: 01/07/2020)

2.1. Classification of the substance or mixture

The product is classified as hazardous pursuant to the provisions of Regulation (EC) 1272/2008 (CLP) (and subsequent amendments and adaptations). The product therefore requires a safety data sheet that complies with the provisions of Regulation (EU) 2020/878.

Any additional information regarding risks to health and/or the environment is reported in sections 11 and 12 of this sheet.

Any additional information regarding fisks to health and/or the environment is reported in sections 11 and 12 or this sh

Classification and hazard statements:

Eye irritation, category 2 H319 It causes severe eye irritation.

2.2. Label elements

Hazard labelling in accordance with Regulation (EC) 1272/2008 (CLP) and subsequent amendments and adaptations.

Hazard pictograms:

Warnings: Attention

Hazard statements:

H319 It causes severe eye irritation.

Precautionary statements:

P280 Protect your eyes/face.

P337+P313 If eye irritation persists, seek medical attention.

Ingredients compliant with Regulation (EC) No. 648/2004

Phosphates 5%< C <15%, anionic surfactants<5%

2.3. Other hazards

Based on the available data, the product does not contain PBT or vPvB substances in a percentage ≥ to 0.1%.

The product does not contain endocrine-disrupting substances in a concentration ≥ 0.1%.

SECTION 3. Composition/ingredient information

3.2. Mixtures

Contains:

MARBEC S.R.L. Revision No. 6 YCH8007 – VELA BIANCA Printed on 08/02/2022 Page No. 3/16 Replaces revision:6 (Revision date: 01/07/2020)

The full text of the hazard statements (H) can be found in section 16 of the data sheet.

SECTION 4. First aid measures

4.1. Description of first aid measures

EYES: Discard any contact lenses. Wash immediately and thoroughly with water for at least 15 minutes, opening the eyelids wide. Seek medical attention if the problem persists.

SKIN: To take off contaminated clothes. Wash immediately and thoroughly with water. If irritation persists, seek medical attention. Wash contaminated clothing before using it again.

INHALATION: Take the subject to fresh air. If breathing is difficult, call a doctor immediately.

INGESTION: Seek medical attention immediately. Induce vomiting only on the advice of the doctor. Do not administer anything orally if the subject is unconscious and unless authorized by the physician.

4.2. Main symptoms and effects, both acute and delayed

No specific information is known about the symptoms and effects caused by the product.

4.3. Indication of the need for immediate medical advice and special treatment

Information not available

SECTION 5. Firefighting measures

5.1. Extinguishing means

MARBEC S.R.L. Revision No. 6 YCH8007 - VELA BIANCA Revision date 08/02/2022 Printed on 08/02/2022 Page No. 4/16 Replaces revision:6 (Revision date: 01/07/2020)

SUITABLE EXTINGUISHING MEANS

The means of extinguishing are the traditional ones: carbon dioxide, foam, dust and water spray. UNSUITABLE MEANS OF EXTINGUISHING

No one in particular.

5.2. Special hazards arising from the substance or mixture

HAZARDS DUE TO EXPOSURE IN THE EVENT OF FIRE Avoid breathing in the combustion products.

5.3. Recommendations for firefighters

GENERAL INFORMATION

Cool the containers with water jets to prevent the product from decomposing and developing substances that are potentially hazardous to health. Always wear full fire protection equipment. Collect extinguishing water that should not be discharged into the sewers. Dispose of contaminated water used for extinguishing and residual fire according to current regulations.

EQUIPMENT

Normal firefighting clothing, such as an open-circuit compressed air breathing apparatus (EN 137), flame-retardant suit (EN469), flame-retardant gloves (EN 659) and firefighter boots (HO A29 or A30).

SECTION 6. Measures in the event of accidental release

6.1. Personal Precautions, Protective Equipment and Emergency Procedures

Stop the leak if there is no danger.

Wear appropriate protective equipment (including personal protective equipment referred to in section 8 of the Safety Data Sheet) to prevent contamination of the skin, eyes and personal clothing. These indications are valid both for workers and for emergency interventions.

6.2. Environmental precautions

Prevent the product from entering sewers, surface water, groundwater.

6.3. Methods and materials for containment and remediation

Vacuum the spilled product into a suitable container. Evaluate the compatibility of the container to be used with the product, checking section 10. Absorb the remainder with inert absorbent material.

Provide sufficient ventilation of the place affected by the leak. Disposal of contaminated material shall be carried out in accordance with the provisions of point 13.

6.4. Reference to other sections

Any information regarding personal protection and disposal can be found in sections 8 and 13.

SECTION 7. Handling and storage

7.1. Precautions for safe handling

Handle the product after consulting all other sections of this safety data sheet. Avoid dispersing the product into the environment. Do not eat, drink, or smoke during use. Remove contaminated clothing and protective equipment before entering eating areas.

7.2. Conditions for safe storage, including any incompatibilities

Store only in the original container. Store closed containers in a well-ventilated place, away from direct sunlight. Store containers away from any

Revision No. 6 MARBEC S.R.L. Revision date 08/02/2022 Printed on 08/02/2022 YCH8007 - VELA BIANCA Page No. 5/16 Replaces revision:6 (Revision date: 01/07/2020)

Legend:

(C) = CEILING: INALAB = Inhalable fraction; RESPIR = respirable fraction; TORAC = Thoracic fraction.

VND = hazard identified but no DNEL/PNEC available; NEA = no expected exposure; NPI = no hazard identified.

8.2. Exposure Controls

Considering that the use of appropriate technical measures should always take priority over personal protective equipment, ensure good ventilation in the workplace by means of effective local suction.

When choosing personal protective equipment, seek advice from your chemical suppliers if necessary.

Personal protective equipment must bear the CE marking certifying its compliance with current standards.

Provide emergency showers with visocular basin.

HAND PROTECTION

Protect your hands with category III work gloves (ref. EN 374 standard).

For the final choice of the material of work gloves, the following must be considered: compatibility, degradation, break-time and permeation.

In the case of preparations, the resistance of work gloves to chemical agents must be checked before use as it is not foreseeable. Gloves have a wear time that depends on the duration and mode of use.

SKIN PROTECTION

Wear long-sleeved work clothes and safety footwear for professional use of category I (ref. Regulation 2016/425 and EN ISO 20344 standard). Wash with soap and water after removing protective clothing.

EYE PROTECTION

It is recommended to wear airtight protective goggles (ref. EN 166 standard).

RESPIRATORY PROTECTION

In case of exceeding the threshold value (e.g. TLV-TWA) of the substance or one or more of the substances present in the product, it is recommended to wear a mask with a type A filter whose class (1, 2 or 3) must be chosen in relation to the limit concentration of use. (ref. EN 14387 standard). If gases or vapours of a different nature and/or gases or vapours with particles (aerosols, fumes, mists, etc.) are present, combined filters must be provided.

The use of respiratory protective equipment is necessary if the technical measures adopted are not sufficient to limit the worker's exposure to the threshold values taken into consideration. The protection offered by masks is limited, however.

In the event that the substance in question is odourless or its odour threshold is higher than the relevant TLV-TWA and in an emergency, wear an open-circuit compressed air breathing apparatus (ref. EN 137 standard) or an external air intake respirator (ref. EN 138 standard). For the correct choice of respiratory protective device, refer to EN 529.

ENVIRONMENTAL EXPOSURE CONTROLS

MARBEC S.R.L. Revision No. 6 YCH8007 - VELA BIANCA Printed on 08/02/2022 Page No. 7/16 Replaces revision:6 (Revision date: 01/07/2020)

Emissions from production processes, including those from ventilation equipment, should be controlled for compliance with environmental protection legislation.

SECTION 9. Physical and chemical properties

9.1. Information on fundamental physical and chemical properties

Property	Value	Information
Physical State	liquid	
Color	colourless	
Smell	characteristic	
Melting or freezing point	Not applicable	
Initial boiling point	Not applicable	
Inflammability	Not applicable	
Lower explosive limit	Not applicable	
Upper explosive limit	Not applicable	
Flash point	> 90 °C	
Auto-ignition temperature	Not applicable	
ph	11	
Kinematic viscosity	Unavailable	
Solubility	Water soluble	
Partition coefficient: n-octanol/water	Unavailable	
Vapour pressure	Unavailable	
Density and/or Relative Density	1,095 Kg/lt	
Relative vapor density	Unavailable	
Particle characteristics	Not applicable	

9.2. Other information

9.2.1. Information on classes of physical hazards

Information not available

9.2.2. Other security features

VOC (Directive 2010/75/EU)

2.00 % - 23.30 g/litre

VOC (Volatile Carbon)

1.13 % - 13.16 g/litre

Explosive properties

Non-explosive

Oxidizing properties

Non-oxidizing

SECTION 10. Stability and responsiveness

10.1. Responsiveness

There is no particular danger of reaction with other substances under normal conditions of use.

10.2. Chemical Stability

MARBEC S.R.L.	Revision No. 6
	Revision date 08/02/2022
YCH8007 – VELA BIANCA	Printed on 08/02/2022

Note to the user:

The information contained in this sheet is based on the knowledge available to us at the date of the last version. The user must ensure that the information is suitable and complete in relation to the specific use of the product.

This document should not be construed as a guarantee of any specific property of the product.

Since the use of the product does not fall under our direct control, it is the user's obligation to observe the laws and regulations in force on hygiene and safety under their own responsibility. They do not accept responsibility for improper use.

Provide adequate training to personnel involved in the use of chemical products.

CLASSIFICATION CALCULATION METHODS

Chemical and physical hazards: The classification of the product has been derived from the criteria established by the CLP Regulation Annex I Part 2. The methods for evaluating the chemical and physical properties are given in section 9.

Health hazards: The classification of the product is based on the calculation methods set out in Annex I of CLP Part 3, unless otherwise indicated in section

Environmental hazards: The classification of the product is based on the calculation methods set out in Annex I of CLP Part 4, unless otherwise indicated in section 12.

Changes from previous revision Changes have been made to the following sections:

01 / 02 / 09 / 11 / 12 / 15 / 16.
